The Phonology of Romanian Ioana Chitoran 2013-07-05 This book provides the first systematic descriptive analysis of the phonological system of Romanian, one of the less studied Romance languages, from the perspective of recent phonological theory. The author offers an account of some of the major phonological processes of modern standard Romanian, set in the framework of Optimality Theory and Correspondence Theory. The book begins with an overview of Romanian phonology - segment inventory, phonotactics, inflectional and derivational morphology. The main part of the study focuses on processes involving vocalic segments: glide-vowel and diphthong-vowel alternations, vowel harmony, palatalization. The major issues addressed include feature theory, syllable structure, metrical structure and stress, the interaction between phonology and morphology. Acoustic phonetic data is used as supporting evidence for the phonological patterning of diphthongs and glide-vowel sequences. Interesting complexities of the system are pointed out and discussed, as they pose certain challenges to the theoretical model. The book contains an abundance of systematically organized data, which makes it a solid reference for students and scholars of general and Romance phonology, and a strong basis for further study.

Receiver of Many Rachel Alexander 2015-09-19 Persephone's life has been one of leisure among the verdant fields: the maiden of flowers, sheltered by her mother, the Harvest Goddess Demeter. Now she is a woman, a goddess in her own right, yearning for freedom- even as the terms of an ancient pact are about to come due. Hades's life has been one of solitude in the somber land of the dead: for millennia he has served as the God of the Underworld, living without attachments, eternally governing the souls of mortals. But he dreams of the young goddess who was promised to be his wife, and knows it is time for his Kingdom to have a Queen. When Hades arrives to claim his betrothed, he finds a young goddess eager to unearth her divine potential- and a powerful mother unwilling to let go. Receiver of Many begins an erotic story of passion and possession, duty and desire, and a struggle that threatens both ancient Greece and the Realm of the Dead itself.

Graced by Waters John Dietsch 2020-04-28 In this inspirational and humorous collection of essays, author John Dietsch sees his addiction to and passion for fishing as a parable that can help us shift from compulsive thinking to mindfulness and a closer connection to God. From creating fishing scenes on the set of A River Runs Through It in Montana, to directing fly fishing shows in New Zealand and from exploring deep canyons in California to guiding in Colorado, John shares his experiences and asks the question: what are we really fishing for? Through John's journeys across the globe, we discover that the same pursuit in fishing—of what is elusive but attainable—can be applied to our own spiritual journey. In the end, Dietsch uncovers his own truth under the rocks of a childhood river, recognizing the loss of both his brothers as the path of acceptance and faith that is graced by waters.

Millionaire by Thirty Douglas R. Andrew 2008-04-30 Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

Medical Anthropology Andrea S. Wiley 2009 Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

Plain Roots Becki Willis 2018-11 Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her

musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means

digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.
