Schutte 2021-08-23 This volume is comprised of contributions to the 67th Nebraska Symposium on Motivation, which brought together various research disciplines such as psychology, education, health sciences, natural resources, environmental studies to investigate the ways in which nature influences cognition, health, human behavior, and well-being. The symposium is positioned to explore two proposed mechanisms in the most depth: 1) the psycho-evolutionary theory of stress recovery and 2) Attention Restoration Theory. The contributions in the volume represent research guided by both of these posited mechanisms, rigorously examine these theories and processes, and share methodological innovations that can be utilized across programs of research. This volume will be of great interest to researchers on natural environments, practitioners and clinicians working with an environmental lens at the intersection of psychology, social work, education and the health sciences, as well as researchers and students in environmental and conservation psychology. **Film Studies** John Hill 2000 This is a guide to the study of film, covering the significant theories, debates and approaches to the subject. Contributors provide an overview of the main disciplinary approaches, explaining the concepts and methods involved in film analysis.

**The Execution Premium** Robert S. Kaplan 2008-08-04 In a world of stiffening competition, business strategy is more crucial than ever. Yet most organizations struggle in this area—not with formulating strategy but with executing it, or putting their strategy into action. Owing to execution failures, companies realize just a fraction of the financial performance promised in their strategic plans. It doesn't have to be that way, maintain Robert Kaplan and David Norton in *The Execution Premium*. Building on their breakthrough works on strategy-focused organizations, the authors describe a multistage system that enables you to gain measurable benefits from your carefully formulated business strategy. This book shows you how to: Develop an effective strategy—with tools such as SWOT analysis, vision formulation, and strategic change agendas Plan execution of the strategy—through portfolios of strategic initiatives linked to strategy maps and Balanced Scorecards Put your strategy into action—by integrating operational tools such as process dashboards, rolling forecasts, and activity-based costing Test and update your strategy—using carefully designed management meetings to review operational and strategic data Drawing on extensive research and detailed case studies from a broad array of industries, *The Execution Premium* presents a systematic and proven framework for achieving the financial results promised by your strategy.

**Kaplan LSAT 2002-2003** Kaplan 2002-06 A complete guide to the LSAT (Law School Admissions Test) offers strategies and techniques to help maximize performance, includes full-length practice tests, and provides tips on the law school admission process. Original. 20,000 first printing.

**Microbial Biosurfactants and their Environmental and Industrial Applications** Ibrahim M. Banat 2019-01-15 Microbial biosurfactants are green molecules with high application potential in environmental and industrial sectors. Chemical diversity of biosurfactants allows them versatility and broad range surfactants capability without compromising performance or economic viability. Biosurfactants are used as emulsifiers, dispersants, wetting agents, oil recovery agents, biopesticides, stabilizers, solubilizers, and bioremediation agents (pesticide, heavy metals and oil spill cleanup). This comprehensive book on biosurfactants and their environmental and industrial applications offers a broad spectrum of information on potential applications of biosurfactants in various fields and related technological developments.

**Population Health: Behavioral and Social Science Insights** Robert M. Kaplan 2015-07-24 The purpose of this book is to gain a better understanding of the multitude of factors that determine longer life and improved quality of life in the years a person is alive. While the emphasis is primarily on the social and behavioral determinants that have an effect on the health and well-being of individuals, this publication also addresses quality of life factors and determinants more broadly. Each chapter in this book considers an area of investigation and ends with suggestions for future research and implications of current research for policy and practice. The introductory chapter summarizes the state of Americans' health and well-being in comparison to our international peers and presents background information concerning the limitations of current approaches to improving health and well-being. Following the introduction, there are 21 chapters that examine the effects of various behavioral risk factors on population health, identify trends in life expectancy and quality of life, and suggest avenues for research in the behavioral and social science arenas to address problems affecting the U.S. population and populations in other developed and developing countries around the world. Undergraduate and graduate students pursuing coursework in health statistics, health population demographics, behavioral and social science, and health policy may be interested in this content. Additionally, policymakers, legislators, health educators, and scientific organizations around the world may also have an interest in this resource.

**Humans Need Not Apply** Jerry Kaplan 2015-08-04 An “intriguing, insightful” look at how algorithms and robots could lead to social unrest—and how to avoid it (The Economist, Books of the Year). After decades of effort, researchers are finally cracking the code on artificial intelligence. Society stands on the cusp of unprecedented change, driven by advances in robotics, machine learning, and perception powering systems that rival or exceed human capabilities. Driverless cars, robotic helpers, and intelligent agents that promote our interests have the potential to usher in a new age of affluence and leisure—but as AI expert and Silicon Valley entrepreneur Jerry Kaplan warns, the transition may be protracted and brutal unless we address the two great scourges of the modern developed world: volatile labor markets and income inequality. In Humans Need Not Apply, he proposes innovative, free-market adjustments to our economic system and social policies to avoid an extended period of social turmoil. His timely and accessible analysis of the promises and perils of AI is a must-read for business leaders and policy makers on both sides of the aisle. “A reminder that AI systems don't need red laser eyes to be dangerous.”—Times Higher Education Supplement “Kaplan...sidesteps the usual arguments of techno-optimism and dystopia, preferring to go for pragmatic solutions to a shrinking pool of jobs.”—Financial Times

*The Stakes of Regulation* Steven L. Kaplan 2015-08-15 Scholars have long regarded 'Bread, Politics and Political Economy in the Reign of Louis XV' (1976) as marking an important moment in the study of the social, political and cultural history of eighteenth-century France. 'The Stakes of Regulation' is the companion volume to a new edition of this landmark study, revealing how Kaplan's thinking has evolved in reaction both to the changing intellectual, epistemological, historiographical and socio-political environment, and to the significant scholarship that has been accomplished during the past forty years. Kaplan remains faithful to his original premise: that the subsistence question is at the core of eighteenth century history, and that the issues joined by the struggle over liberalization continue to shape our destiny today through the bristling tension between liberty and equality, and the debate over the necessity, legitimacy and character of regulation.

**MCAT Critical Analysis and Reasoning Skills Review** Princeton Review (Firm) 2016 "Complete coverage of the critical analysis and reasoning skills needed for the MCAT, detailed explanations for every practice question, strategies for a competitive edge; 3 full-length online practice tests"--Cover. **Teaching Young Adult Literature** Judith A. Hayn 2015-11-12 This text is intended to give educators a resource to aid them in creating a literacy curriculum. The included chapters written by experts from different universities across the country offer a variety of methods for using YAL to meet the standards while connecting with students. Following a framework first chapter introducing the importance of YAL and discussing its relevance, other authors tackle various ways to teach it. Each chapter may suggest different strategies and rationales for utilizing YAL, but each shares a common purpose with the others: to promote the efficacy of YAL to engage students while at the same time meeting the rigorous standards set forth by the Common Core.
