The Cosmatesque Mosaics of Westminster Abbey Warwick Rodwell 2019-11-30 Westminster Abbey contains the only surviving medieval Cosmatesque mosaics outside Italy. They comprise: the ‘Great Pavement’ in the sanctuary; the pavement around the shrine of Edward the Confessor; the saint’s tomb and shrine; Henry III’s tomb; the tomb of a royal child, and some other pieces. Surprisingly, the mosaics have never before received detailed recording and analysis, either individually or as an assemblage. The proposed publication, in two volumes, will present a holistic study of this outstanding group of monuments in their historical architectural and archaeological context. The shrine of St Edward is a remarkable survival, having been dismantled at the Dissolution and re-erected (incorrectly) in 1557 under Queen Mary. Large areas of missing mosaic were replaced with plaster on to which mosaic designs were carefully painted. This 16th-century fictive mosaic is unique in Britain. Conservation of the sanctuary pavement was accompanied by full archaeological recording with every piece of mosaic decoration drawn and colored by David Neal, phase plans have been prepared, and stone-by-stone examination undertaken, petrologically identifying and recording the locations of all the materials present. It has revealed that both the pavements and tombs include a range of exotic stone types. The Cosmati study has shed fresh light on every aspect of the unique series of monuments in Westminster Abbey; this work will fill a major lacuna in our knowledge of 13th-century English art of the first rank, and will command international interest.

With step-by-step instructions, illustrated crease patterns, and how-to photos, you'll learn to create these wonderful designs yourself. Eric's first book covers the fundamentals of origami tessellations, provides history, and describes simple beginning techniques with detailed illustrations and photographs. An extensive gallery showcases tessellations folded by the world’s leading origami fine artists--inspiring you to experiment, innovate, and eventually create your own unique designs.

Jungalow: Decorate Wild Justina Blakeney 2021-04-06 From Justina Blakeney, the ultimate guide to designing wildly creative interiors that are free-spirited, layered, and deeply personal Justina Blakeney’s new book is her biggest, boldest, and most beautiful volume yet, filled with irresistible style, original patterns, and artwork—lushly photographed by Dabito. In each chapter, Justina shares her distinctive point of view on everything design fans want to know—how to make bold choices with color and pattern, how to take cues from nature, how to authentically glean inspiration from their heritage and travels, how to break rules, and all the other paths to truly begin to decorate wild. Along the way, Justina also shares personal narratives, practical advice, and nuanced insight into how she lives in her own space—how she reconnects with nature, how she plays and stays inspired, how she gives herself permission to feel free and wild, and how readers can do the same. Jungalow is the term coined by Justina for the brand that embodies her wild, but cozy and homey, style. Copycats abound, but there is no other book like this one—offering Justina’s authentic, encouraging voice and approachable, signature style.

Like an Ancient Shrine Petra Schultheiss 2018-07-16 When Prince Albert died in 1861 at the age of forty-two, his wife Queen Victoria followed this tragic event by an elaborate mourning period in which she surrounded herself as well as her people with memorials of the Prince Consort. Of these, the three most elaborate, the Albert Memorial Chapel, the Royal Mausoleum and the National Memorial to the Prince Consort, all included mosaic decoration. In close connection to current architectural theories such as polychromy or the ideal of the complete decoration as well as the research and experimentation that was carried out with and about the medium mosaic, the memorial mosaics were planned and designed. The medium Queen Victoria chose for these monuments served to underline and strengthen the image of Prince Albert that she created and through this also helped to secure her own claim to power as female sovereign. This book presents an overview of the history of mosaic in England up to the 1860s and a detailed description of the processes of planning and creating the mosaics. Queen Victoria’s memorial program as a whole will be described and compared to contemporary mourning rituals as well as British precedents for initiating similar cults.

Designing Tessellations Jinny Beyer 1999 Designing Tessellations opens the door for quilters to thousands of new and exciting patterns by showing them how to create tessellations--designs made up of the repeated use of seemingly complex but deceptively simple shapes that interlock perfectly to flow across a quilt. Inspired by artist M. C. Escher, Jinny Beyer introduces quilters to the fascinating world of symmetry and then clearly shows how to experiment with shapes and images to create sensational, tessellating designs. Quilters will not only learn how to produce interlocking geometric patterns, but also will learn how easy it is to create true-to-life images of birds, fish, butterflies, and more in the style of Escher. Features include: - More than 125 color photographs and 2,000 step-by-step color drawings - Dozens of quilts featuring tessellated designs

Art Is Fundamental Eileen S. Prince 2008 This comprehensive art curriculum can easily be integrated into any teacher’s existing instruction and provides thrilling and rewarding projects for elementary art students, including printmaking techniques, tessellations, watercolors, calligraphic lines, organic form sculptures, and value collages. Detailed lessons--developed and tested in classrooms over many years--build on one another in a logical progression and explore the elements of texture, color, shape, line, form, and value, and principles such as balance (formal, informal and radial,) unity, contrast, movement, distortion, emphasis, pattern and rhythm. Each lesson also represents an interdisciplinary approach that improves general vocabulary and supports science,

math, social studies, and language arts. Though written for elementary school teachers, it can be easily condensed and adapted for middle or even high school students. A beautiful eight-page color insert demonstrates just how sophisticated young children’s art can be when kids are given the opportunity to develop their skills.

Structure and Form in Design Michael Hann 2014-02-13 This book provides a critical examination of structure and form in design, covering a range of topics of great value to students and practitioners engaged in any of the specialist decorative arts and design disciplines. The complexities of two-dimensional phenomena are explained and illustrated in detail, while various three-dimensional forms are also discussed. In the context of the decorative arts and design, structure is the underlying framework, and form the resultant, visible, two- or three-dimensional outcome of the creative process. Whether hidden or visually detectable in the final design, structure invariably determines whether or not a design is successful in terms of both its aesthetics and its practical performance. Hann successfully identifies various geometric concepts, and presents and discusses a number of simple guidelines to assist the creative endeavours of both accomplished and student practitioners, teachers and researchers.

Teaching Religious Education Creatively Sally Elton-Chalcraft 2014-11-20 Teaching Religious Education Creatively offers a brand new approach for the primary classroom and is crammed full of innovative ideas for bringing the teaching of RE to life. It helps teachers understand what constitutes a healthy curriculum that will encourage children to appreciate and understand different belief systems. Perhaps most importantly, it also challenges teachers to understand RE as a transformatory subject that offers children the tools to be discerning, to work out their own beliefs and answer puzzling questions.

Underpinned by the latest research and theory and with contemporary, cutting-edge practice at the forefront, expert authors emphasise creative thinking strategies and teaching creatively. Key topics explored include: What is creative teaching and learning? Why is it important to teach creatively and teach for creativity? What is Religious Education? Why is it important for children to learn ‘about’ and ‘from’ religion? How can you teach non-biased RE creatively as a discrete subject and integrate it with other curriculum areas? Teaching Religious Education Creatively is for all teachers who want to learn more about innovative teaching and learning in RE in order to improve understanding and enjoyment and transform their own as well as their pupil’s lives.

50 Art Ideas Susie Hodge 2011-09-29 A visit to an art gallery can be a baffling experience - a bewildering parade of paintings, sculptures, artists and movements with little perspective on how they all fit together. 50 Art Ideas you Really Need to Know is here to help. For all those who don’t know their Degas from Dali or their Monet from their Mondrian, this informative and insightful guide discusses 50 of the most important and influential concepts in art from the Ancient Greeks to the present. Taking in the defining artistic moments in history, including the Baroque, the Renaissance and the Modern, this book also explores influential movements such as Romanticism, Cubism and Minimalism. Susie Hodge’s concise and insightful text is accompanied by a glossary explaining key terms, as well as brief mini-essays and informative biographies on major artists of the period. Featuring an informative array of images to illustrate key concepts and comprehensive timelines to place each movement in its context, this book provides a broad-ranging survey of the most significant developments in the world of art and design. It will delight anyone who has ever been mystified by artistic jargon and wants to gain a deeper, more thorough enjoyment of art.
