Asset Pricing and Portfolio Choice Theory Kerry Back 2010 This book is intended as a textbook for Ph.D. students in finance and as a reference book for academics. It is written at an introductory level but includes detailed proofs and calculations as section appendices. It covers the classical results on single-period, discrete-time, and continuous-time models. It also treats various proposed explanations for the equity premium and risk-free rate puzzles: persistent heterogeneous idiosyncratic risks, internal habits, external habits, and recursive utility. Most of the book assumes rational behavior, but two topics important for behavioral finance are covered: heterogeneous beliefs and non-expected-utility preferences. There are also chapters on asymmetric information and production models. The book includes numerous exercises designed to provide practice with the concepts and also to introduce additional results. Each chapter concludes with a notes and references section that supplies references to additional developments in the field.

The Ultimate Betrayal Kimberla Lawson Roby 2015-06-09 "Roby's highly engaging prose offers edgy characters and intense drama." - Booklist It's been four years since twenty-eight-year old Alicia Black, daughter of Reverend Curtis Black, divorced her second husband, the most womanizing and corrupt man she has ever known. Since then, Alicia has been dating her first husband, Phillip Sullivan, a wonderfully kind and true man of God whom she'd hurt terribly by cheating on him. Alicia has worked hard to prove herself worthy of his trust once more, and when he asks her to marry him again, she couldn't be happier. But Levi Cunningham, the drug dealer Alicia had an extramarital affair with, has just been released from prison, and he has completely turned his life around for the better. Still head-over-heels in love with Alicia, he will do whatever is necessary to win her back. Remarrying Phillip is the one thing Alicia has wanted for years, but she can't get Levi out of her mind. Alicia and Phillip aren't the only ones in the middle of a crisis. Their best friends, husband and wife Brad and Melanie Richardson, are struggling to keep their marriage together. Workaholic Brad is never home and has begun losing thousands on bad investments. Or so he says. Melanie, who is certain there's more to the story, is determined to get at the truth. Fresh betrayal leads to consequences no one saw coming, and Alicia's relationship with Phillip might not be the only thing that needs saving. But is it already too late? Creating Mr. Kortan Urban Monk 2020-03-22 More than a memoir of a custom cafe racer build this book is a tribute to a teacher who inspired young people to be creative with their minds and capable with their hands. Growing up in Fargo, North Dakota in the 1970s and 80s, The Urban Monk had the opportunity to develop a love for machines, metal working and motorcycles. This book provides a glimpse into what life was like for the author and his young friends in Fargo during that time. It is also a poignant defense of industrial arts education in public schools. After an over three year effort building a custom cafe racer in his spare time and documenting the entire process in videos shared with the world on his YouTube channel Urban Monk TV, the author tells the story of how this project became more than a custom motorcycle build - it became a tribute to his middle school Metal Shop teacher who inspired him to go on to a life time of peaceful meditation in his garage with a wrench in his hand. Anyone interested in motorcycles, mechanics, do-it-yourself projects or a historical retrospective of life in 70s-80s Fargo will enjoy this pleasant read.

Strong media offerings include interactive figures and online homework. Sullivan/Miranda's Calculus has been built with today's instructors and students in mind.

Catalog of British Motorcycles Floyd Clymer 2014-03 84 pages, 83 black & white illustrations, size 8.25 x 11 inches. Published in the USA under the same title in 1951 by Floyd Clymer, the original publication was a pocket sized landscape format book and it is often criticized as difficult to read due to its small print size. Consequently, this edition was re-formatted into a larger and more conventional portrait size which has increased the text size by almost 40%. This publication provides the reader with an insight into the country, and the manufacturers, that were ultimately destined to succumb to the dominance of the Japanese motorcycle industry. A total of 33 different British motorcycle manufacturers and their various models are included and sadly, less than a handful of those 33 manufacturers survive today. A 'must have' resource for any motorcycle enthusiast and an invaluable reference for anyone interested in British 'iron'. Many of the motorcycles featured within are highly collectible today and the predominance of these early manufacturers no longer exist. This truly historical documentation of the glory years of British motorcycle manufacturing has been out-of-print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market. We are pleased to be able to offer this reproduction as a service to all motorcycle enthusiasts worldwide.
