**The Language of Food: A Linguist Reads the Menu** Dan Jurafsky 2014-09-15 A 2015 James Beard Award Finalist: "Eye-opening, insightful, and huge fun to read."

—Bee Wilson, author of *Consider the Fork* Why do we eat toast for breakfast, and then toast to good health at dinner? What does the turkey we eat on Thanksgiving have to do with the country on the eastern Mediterranean? Can you figure out how much your dinner will cost by counting the words on the menu? In *The Language of Food*, Stanford University professor and MacArthur Fellow Dan Jurafsky peels away the mysteries from the foods we think we know. Thirteen chapters evoke the joy and discovery of reading a menu dotted with the sharp-eyed annotations of a linguist. Jurafsky points out the subtle meanings hidden in filler words like "rich" and "crispy," zeroes in on the metaphors and storytelling tropes we rely on in restaurant reviews, and charts a microuniverse of marketing language on the back of a bag of potato chips. The fascinating journey through *The Language of Food* uncovers a global atlas of

culinary influences. With Jurafsky's insight, words like ketchup, macaron, and even salad become living fossils that contain the patterns of early global exploration that predate our modern fusion-filled world. From ancient recipes preserved in Sumerian song lyrics to colonial shipping routes that first connected East and West, Jurafsky paints a vibrant portrait of how our foods developed. A surprising history of culinary exchange—a sharing of ideas and culture as much as ingredients and flavors—lies just beneath the surface of our daily snacks, soups, and suppers. Engaging and informed, Jurafsky's unique study illuminates an extraordinary network of language, history, and food. The menu is yours to enjoy.

*Between the Iron and the Pine* Lewis C.

Reimann 2018-03-12 When a Chicago financier was invited in the early Eighties to invest his money in the infant iron mining and lumber industries of Iron County of the Upper Peninsula of Michigan, he sniffed:— “Iron County? Hell, it’s too far away from anywhere to ever amount to anything” Little did this man of money expect that the giant white pine of that virgin land would go into the building of most of the homes of his

native Chicago and other thriving young cities of the middle west. Nor that the iron ore dug from its fabulously rich mines result in the defeat of the Kaiser and Hitler. He had no way of knowing Iron River was to be the home of Carrie Jacobs Bond whose songs were to be sung the world over. Nor that I, one of the Reimann Baker’s Dozen, would write this saga of the North seventy years after he made his brash statement. How did all this come about? How did this backwoods community, hidden in the dark pine-covered hills in that far-away land, become a great factor in the building of this nation? Well, here is the tale, written in a distant city by the author as he sits before his fireplace recalling his boyhood days at the turn of the Century.

## **Arab-American Faces and Voices**

Elizabeth Boosahda 2010-01-01 As Arab Americans seek to claim their communal identity and rightful place in American society at a time of heightened tension between the United States and the Middle East, an understanding look back at more than one hundred years of the Arab-American community is especially timely. In this book, Elizabeth Boosahda, a third-generation Arab American, draws on over

two hundred personal interviews, as well as photographs and historical documents that are contemporaneous with the first generation of Arab Americans (Syrians, Lebanese, Palestinians), both Christians and Muslims, who immigrated to the Americas between 1880 and 1915, and their descendants. Boosahda focuses on the Arab-American community in Worcester, Massachusetts, a major northeastern center for Arab immigration, and Worcester's links to and similarities with Arab-American communities throughout North and South America. Using the voices of Arab immigrants and their families, she explores their entire experience, from emigration at the turn of the twentieth century to the present-day lives of their descendants. This rich documentation sheds light on many aspects of Arab-American life, including the Arab entrepreneurial motivation and success, family life, education, religious and

community organizations, and the role of women in initiating immigration and the economic success they achieved.
